

THE  
**CHEF  
STORY**®

MADE IN INDIA FOR THE WORLD

EVERY DAY SERIES

LET'S SAVE  
**ENVIRONMENT**  
TOGETHER

# Salient Features

Everyday Series is an economy range, which is designed for every Indian home. The Everyday Series is a collection of minimalist and extremely durable cookware. The Everyday series is made in a timeless design, which means it won't date and is suitable for everyday use-year after year.

## Water Based Coatings

The non-stick coatings made without PFOA on THE CHEF STORY products are affirmed safe for cooking by regulatory agencies worldwide. Teflon™ is a brand many households recognize for high-quality non-stick coatings on cookware. The Teflon™ brand is registered and owned by the Chemours Company. Teflon™ is a trademark of The Chemours Company FC, LLC used under license by THE CHEF STORY.

## Two Way Non-Stick Coating

Unlike all the traditional non-stick cookwares available in the market which are coated with silicon polyester on the exterior, THE CHEF STORY range is coated with non-stick coating on the exterior as well. The non-stick coating on the exterior ensures easy cleaning and better scratch resistance and thus increases the longevity of the pots and pans.

## Phenolic Handles

Phenolic Handles stay cool even at high cooking temperatures and has heat resistance up to 170°C and remains cool to touch when cooking. Handles are ergonomic for a much better grip and easy lifting - even when wearing bulky oven gloves.

## Pressed Aluminium-Ultra Conductive Construction

For Quick Heat Distribution And Corrosion Resistance.

Pressed aluminium utilizes compressive force of hydraulic press to shape a cookware from a sheet of aluminium and the result is a very quick-heating cookware thereby using less energy.

## 100% Recyclable Aluminium

The body of the pots and pans are made from recycled aluminium thereby minimizing the impact on environment and contributing positively to the environmental balance.

## 100% Recyclable Aluminium

The body of the pots and pans are made from recycled aluminium thereby minimizing the impact on environment and contributing positively to the environmental balance.

## 100% Eco-friendly Process

The body of the pots and pans are made from recycled aluminium thereby minimizing the impact on environment and contributing positively to the environmental balance.

## Warranty

THE CHEF STORY provides a warranty of 1 year from date of purchase to be free from defects in materials and workmanship under normal household use.

## Shatter Resistant Tempered Glass Lids

Extra strong tempered glass lid allows you to see the cooking process without lifting the lid, thus keeping the flavour and moisture in. These lids can sit upside down on the knob on the counter so that you can prepare food without fluid from the lid dripping or running and making a mess on the counter.

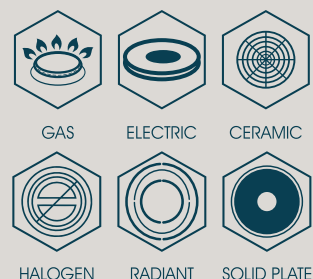

## Flared Rim for a Drip Free Pouring

The flared rims allow you to pour hot liquids safely and easily.

## Grooved Base for Even Heat Distribution

The groovings on the base helps in retaining the heat for a longer time thus saving the energy.

## Suitable Cooktops

Compatible with gas and electric cooktops (Not designed for induction cooktops)

**THE CHEF STORY is an eco-friendly cookware brand that has been inspired by people looking for clever design, excellent functionality and also safe for the environment.**
